- ✓ Electronic Anode Rod Replacement \$43/\$516

**Terms & Conditions May Apply*

Benefits of Routine Plumbing Maintenance:

- ✓ **Extended Lifespan of Plumbing Systems:** Regular maintenance helps prolong the life of your plumbing components, avoiding premature replacements.
- ✓ **Improved Water Quality:** Systems like water softeners and filters function better and more efficiently with regular checks, ensuring you always have access to clean, safe water.
- ✓ **Reduced Risk of Emergency Repairs:** Frequent inspections can identify and resolve minor issues before they escalate into major problems, saving you from emergencies.
- ✓ **Increased Energy Efficiency:** Well-maintained plumbing systems, including water heaters, operate more efficiently, lowering energy costs.
- ✓ **Consistent Water Pressure:** Regular servicing helps maintain optimal water pressure throughout your home, preventing the frustrations of low water pressure.

Home Protection

\$1,306.00	Automatic Water Shutoff
	Protect your home with smart water monitoring. It detects leaks and shuts off water automatically to prevent damage.
\$148.00	Emergency Water Shut Off Valve
	Shutoffs are a necessary component to every fixture in your home. They help prevent water damage, flooding, and costly repairs by giving you fast control to shut off water before problems escalate. *Pricing valid only when combined with another service.
\$450.00	Frost Free Outdoor Faucet
	An outdoor faucet designed to prevent freezing and bursting pipes in cold weather. Its long stem shuts off water well inside the heated part of your home, keeping the outdoor valve and pipe exposed to cold air empty and protected from frost damage. It's ideal for year-round outdoor water access without worry of winter leaks. *Pricing valid only when combined with another service
\$740.00	Pressure Reducing Valve
	A plumbing device that lowers incoming water pressure from the main supply line to a safer, more manageable level for use inside a home or building.
\$196.00	Wi-Fi Water Leak Detector
	Wi-Fi-enabled water leak and freeze detectors designed to protect your home from water damage by providing early alerts to leaks, freezing temperatures, and humidity changes. *Pricing valid only when combined with another service.
\$1,051.00	Hot Water Recirculation Pump
	This pump is designed to eliminate the wait for hot water at the taps in existing homes with no recirculation line. The stainless-steel recirculation pump connects to a standard tank-style water heater.

Additional costs may apply based on actual installation.

Home Accessories

\$133.00	Soft Close Toilet Seats in White
	Quiet, gentle closing—no slamming or pinched fingers. Adds comfort, safety, and a modern touch while protecting your toilet. A small upgrade with a big impact! *Pricing valid only when combined with another service.
\$427.00	Propane/Oil Level Wi-Fi Reader
	A Wi-Fi or cellular propane/oil tank monitor is a smart device that lets homeowners track fuel levels in real-time from their smartphone. They help prevent unexpected runouts, improve delivery planning, and offer peace of mind with instant alerts and usage tracking.
\$1,141.00	Bidet Toilet Seat
	Offering superior hygiene, comfort, and convenience. With features like warm water cleansing, a heated seat, and an air dryer, it delivers a spa-like clean while reducing toilet paper use. It's the perfect blend of luxury and sustainability for any modern home.

Water Quality

\$634.00	Scale Inhibitors
	A tankless scale inhibitor is a device installed on tankless water heaters to reduce mineral buildup (scale) caused by hard water. It helps protect the heater's internal components from damage, improves efficiency, extends the unit's lifespan, and reduces maintenance by preventing scale deposits that can clog pipes and reduce heat transfer.
\$601.00	Under Counter Water Filtration
	The Under Counter Water Filtration provides clean, refreshing filtered water from your tap. Reduces lead, chlorine taste, odor, and other impurities from your drinking and cooking water.
\$1,094.00	Universal Water Softener
	The Universal Water Softener prevents build-up of minerals (scale) on the inside of pipes, fixtures, and hot water heaters. Lengthens the life of some appliances. Reduces or prevents mineral spots on glassware.

Additional costs may apply based on actual installation.

100% SATISFACTION GUARANTEED

✓ **Professional, Qualified Technicians**
Every technician is fully trained, uniformed, and qualified to provide you with expertise and care.

✓ **Respect for Your Home**
We will treat your home with the same care and respect as we would our own, taking extra precautions to protect your space during every visit.

✓ **Honesty & Transparency**
You'll receive a clear, written estimate for any repairs before work begins – no surprises, no hidden fees.

✓ **Thorough, High-Quality Service**
Our technicians will follow a detailed quality assurance checklist to ensure every job is completed properly, efficiently, and to the highest standards.

With **A&L**, you can trust that you're receiving top-notch service backed by our commitment to excellence—**every time.**
